

To Whom It May Concern,

The town of Edgecomb, Maine is requesting ConnectME funding to help bring broadband service to the un-served areas of our town. Currently the Town has been in negotiations with TimeWarner Cable for projects in these areas. The list below outlines the roads for which we will need funding.

Road	Mileage		Homes	Cost
	Aerial	Underground		
Mill Road	2.48	0.13	24	\$50,433.38
Parsons Point Rd	1.45	0	9	\$26,161.41
River Road	5.78	0	73	\$196,000.00
Town Hall Rd	0.05	0	1	\$1,548.35
Webb Rd	0.32	0	4	\$4,948.41
Totals	10.08	0.13	111	\$279,091.55

TimeWarner will use their cable infrastructure to deliver service to our residents. The Town will be installing utility poles on some roads to carry TimeWarner's cable. The ownership of these poles may be transferred in the future.

The outlook for this project will bring broadband service availability to an estimated 98% of the Town of Edgecomb.

Thank you,

Stuart Smith  
Selectman, Town of Edgecomb
